

WATLINGTON PARTNERSHIP OF SCHOOLS

Our Partnership's Mission Statement

Our mission is to achieve excellence in children's work and behaviour and in all other aspects within our separate schools through working together in close partnership. We believe that we can achieve this through sharing expertise and knowledge and through sharing our experiences and resources. Together we can develop all the schools within the Partnership to achieve the highest possible standards within a happy, secure and supportive community.

Our Partnership's Values

We believe that we are a Partnership of Schools with many strengths. Together we specialise in many areas of the curriculum including Humanities, the Arts & PE and we believe that by organising joint activities for both Staff and children everyone in our Partnership can excel.

We feel our whole Partnership approach towards our children's education gives our children a strong sense of community, responsibility and commitment empowering them to make considered, confident and informed choices in the future.

We aim to provide children with a range of inter school activities throughout the year that promote the enjoyment of learning for its own intrinsic value and to ensure the smooth transfer of children from Primary to Secondary School.

Our Partnership Contract

Every School within the Partnership will:

- Send a Headteacher or a Deputy to the termly Partnership Meetings
- Inform parents and carers of Partnership events and activities
- Encourage all children within the Partnership to take part in joint activities
- Encourage teachers to network with each other
- To send teachers to attend Partnership INSET courses

By working together we strive for excellence.
